STORE IT ALL IN ONE PLACE. ACCESS IT FROM ANY.

Easy to use, the My Cloud Home storage device plugs directly into your Wi-Fi router at home so you can save all your digital content in one central place. Automatically back up the photos and videos on your phone, and wirelessly back up and sync your PC and Mac computers and cloud accounts.

Central Place for Everything

Store and organize all the photos, videos, music and files from all your devices in one central place.

On-the-Go Access

Upload, access and share your favorite memories using the My Cloud Home mobile app, desktop app or MyCloud.com anywhere with an internet connection.

Quick and Simple Setup

Just plug the device into your Wi-Fi router and use your smartphone to set up. No computer necessary. No monthly fee required.

ONE CENTRAL PLACE TO STORE AND ORGANIZE EVERYTHING

The My Cloud Home device is home to all your content. With enough space to keep all your favorite photos, videos and files from all your phones, tablets, computers and external storage devices, in one place at home.

MOBILE, ON-THE-GO ACCESS

Use the My Cloud Home mobile app, desktop app or MyCloud.com to upload, access and share your favorite memories and stream videos saved on your My Cloud Home device anywhere you have an internet connection.

AUTO BACKUP FOR PHOTOS AND VIDEOS ON YOUR PHONE

Automatically back up photos and videos on your phone to the My Cloud Home device so you can make room for more.

USB PORT TO IMPORT PHOTOS AND VIDEOS FROM EXTERNAL STORAGE DEVICES

Quickly import photos and videos from other devices scattered around your house, like USB flash drives and external hard drives, using the USB port on the back of the My Cloud Home device.

DESKTOP SYNC

Keep your favorite folders from your PC and Mac computers in continuous sync with the My Cloud Home device.

SMOOTH VIDEO PLAYBACK ANYWHERE

Stream your personal videos anywhere, on any device, using the My Cloud Home mobile and desktop app or MyCloud.com.

MY CLOUD HOME DUO - EVERYTHING SAVED TWICE

My Cloud Home Duo comes equipped with two hard drives and is set to Mirror Mode (RAID 1), so all your photos, videos and files are

stored on one drive and automatically duplicated onto the second drive for extra peace of mind.

Search to find content easily

Quickly find photos, videos, movies and docs using easy-to-use search with the My Cloud Home mobile or desktop app, or on MyCloud.com.

Individual, private spaces for each user

Invite family and friends to create individual accounts. Each invited person can set up their own private space that only they have access to on the device. They can manage, access and share their content as they want.

Third-party applications to customize your way

Tailor your My Cloud Home device to fit your personal needs and preferences using downloadable services, including Plex Media Server, Dropbox, Google Drive, IFTTT and more.

Cloud account download to keep everything in one place

Store everything in one place, even content in your favorite cloud accounts. Photos, videos and files from your cloud accounts are automatically downloaded to your My Cloud Home device, including Dropbox, Box, Google Drive™, Facebook and many more.

Auto backup for all PCs and Mac computers at home

The My Cloud Home device has enormous capacity and plugs into your network to wirelessly back up every computer at home to one central place. It works seamlessly with Windows Backup and Time Machine software.

Password Protection

Help secure all your content from prying eyes by setting a unique password for your My Cloud Home account, along with a passcode and touch ID for your My Cloud Home mobile app.
