Maximum impact – that's what you'll get with Logitech BRIO STREAM, whether you're streaming on Twitch, recording for YouTube or video calling on Skype. Ultra HD 4K video captures the smallest details of your facial features and expressions. You stream fluid, hyper-fast 1080p/60fps video to match your gaming broadcast and create exciting slow-mo replays thanks to the high frame rate. Adjust the field of view to your use: from a broad 90° that includes more background to a narrow 78° that keeps the focus on you. Machine-learning software cleans up a cluttered background. BRIO STREAM is fully integrated with XSplit and includes a 12-month premium XSplit license.
