The Best Comes From Within

Seagate has dominated the data storage industry for 40 years.

We understand your unique data storage challenges, and crafted the IronWolf® and IronWolf Pro 14 TB NAS hard drives to help you achieve your goals.

Be Tough. Be Ready

For everything NAS, there's IronWolf and IronWolf Pro — always on, always working.

Built for multi-user environments and high workload rates, these NAS hard drives are enhanced with AgileArray technology for optimal reliability and system scalability.

Drive Health and Data Recovery

IronWolf Health Management (IHM) means better drive health. When IronWolf or IronWolf Pro hard drives are integrated into compatible network attached storage (NAS) systems, the overall system reliability increases because the NAS system is constantly monitored and users are alerted if needed.

For further protection, a Rescue Recovery Data Plan is included for 2 years when you purchase and register an IronWolf Pro drive. You'll have access to a global team of world-class data recovery experts in case of unexpected data loss.

Built for Work. Built for Performance

Multiple users can confidently upload and download data on a NAS system populated with IronWolf hard drives.

All IronWolf hard drives are equipped with RV sensors to maintain performance in multi-bay NAS enclosures.

Support Your Business

A small business needs data that can thrive.

IronWolf NAS hard drives can handle the vibrations and high workload rates of a high data network within a multi-RAID environment.

Be Creative. Keep Growing

IronWolf and IronWolf Pro help keep you on schedule with 24×7 remote access, backup, and file sharing.

So keep doing what you do best. These drives will keep pace with your growing data storage requirements.
