## External storage, evolved

Whether you're carrying games, movies, or sensitive work files, the Portable SSD T7 Touch gives you speed and security in a palm-sized package. Experience the next level of external storage.

## Transfer in a flash

Transfer massive files within seconds with the incredible speed of USB 3.2 Gen2 on the T7 Touch. The embedded PCIe NVMe technology facilitates sequential read/write speeds of up to 1,050/1,000 MB/s, respectively, making the T7 Touch almost twice as fast as the T5.

## Durable design

SSD stands for Solid State Drive, which means it's built with no moving parts. A sturdy metal body encases the immobile hardware, keeping your data intact from falls of up to 2 meters.

## Secure with a touch

Keep your private files secure without sacrificing convenience. The built-in security options on the T7 Touch utilize the AES 256-bit encryption. and give you the option of unlocking with a touch of your finger or with a password

## Enlightening motion LED

The T7 Touch features an LED square that illuminates to keep you informed of what your SSD is doing at a glance. Choose from classic black or stylish silver, in three capacities to suit your needs: 500GB, 1TB, or 2TB.

## Sleek and compact style

Pocket-sized and slim, the lightweight body comes standard on the T7 Touch. Roughly the size of a credit card and weighing in at 58 grams, the solid aluminum unibody construction fits comfortably in the palm of your hand.

## Management software

The T7 Touch comes embedded with upgraded software for PCs and Macs to help you set up a password and fingerprints and get the latest firmware updates. You can also download the mobile app for Android smartphones and tablets.

## Multi-device compatibility

Access your files anytime, anywhere. The T7 Touch is compatible with PC, Mac, Android devices, gaming consoles, and more. Included in the box are USB Type C-to-C and Type C-to-A cables for added convenience.

## World's No. 1 Flash Memory

Experience the superior performance and reliability that you can only get from the world's number one brand for flash memory since 2002. All firmware and components, including Samsung's world-renowned DRAM and NAND, are produced in-house, allowing end-to-end integration for quality you can trust
