Smooth Entertainment with AC1200 Dual Band WiFi

The Archer C6 creates a reliable and blazing-fast network powered by 802.11ac WiFi technology. The 2.4 GHz band delivers speeds up to 300 Mbps allowing you to email and browse the web, while the 5 GHz band delivers speeds up to 867 Mbps making it ideal for HD video streaming and lag-free online gaming.

5 High-Performance Antennas for WiFi Coverage throughout Your Home

Four external antennas and one internal antenna send WiFi signals to every corner of your home. Stay connected and enjoy fast WiFi whether you are lounging on the sofa or on the balcony. With a powerful chipset, the Archer C6 provides ideal WiFi coverage.

Access Point Mode

Switch the working mode of the Archer C6 to Access Point Mode to share your wired network with other wireless devices.

MU-MIMO

Increases Speed, Throughput, Capacity

MU-MIMO enables the Archer C6 to serve multiple devices simultaneously. Say goodbye to bandwidth congestion and lag as you zip through a more efficient network built for more users and more devices.

Gigabit Connectivity, 10× Faster

With one Gigabit WAN port and four Gigabit LAN port, speeds can be up to 10× faster than a standard Ethernet connection. Connect an Ethernet cable from the router's Gigabit Ethernet port to your favorite gaming consoles, smart TV's and more for reliable high-speed connections.

Easy Setup and Management with the Tether APP

The free Tether app is available for both Android and iOS devices, making it easy to set up the Archer C6 and manage your network settings.
