

G.Skill Trident Z5 RGB F5-6400J3239G16GX2-TZ5RK memory module

Artikel	129935
Herstellernummer	F5-6400J3239G16GX2-TZ5RK
EAN	4713294231369
G.Skill	

Trident Z5 RGB series DDR5 memory is the latest G.SKILL flagship memory kits designed for ultra-high extreme performance on next-gen DDR5 platforms. Featuring a sleeker and streamlined aluminum heatspreader design, available in metallic silver or matte black, the Trident Z5 RGB series DDR5 memory is the ideal choice for gamers, overclockers, content creators, and enthusiasts to build a high-performance system.

Trident Z5 RGB DDR5 memory is the latest G.SKILL flagship series designed for ultra-high extreme performance on next-gen DDR5 platforms. Featuring a sleek and streamlined aluminum heatspreader design, available in metallic silver or matte black, the Trident Z5 RGB DDR5 memory is the ideal choice for gamers, overclockers, content creators, and enthusiasts to build a high-performance system.

Blazing Fast DDR5 Extreme Performance

Ushering in a new era of memory performance, the Trident Z5 RGB brings unparalleled data transfer speeds compared to the previous generation of DDR4 memory. Engineered to the highest performance and quality standards, each Trident Z5 RGB memory module is created from high-quality, hand-screened DDR5 ICs to achieve extreme memory performance on next-gen DDR5 platforms.

Extreme Memory Performance with 12th Gen Intel Core CPU & Z690 Platform

G.SKILL is dedicated to develop ever-faster extreme overclocking memory on each new Intel platform generation. Developed and optimized on the latest 12th Gen Intel Core processors and Intel Z690 chipset platform, Trident Z5 RGB taps into the speed potential of DDR5 to bring a whole new level of performance to worldwide gamers, overclockers, and enthusiasts.

Premium Dual-Texture Heatspreader Design

The all-new Trident Z5 family incorporates hypercar elements into the iconic Trident heatspreader design, creating a sleek and futuristic exterior. Featuring a black brushed-aluminum strip inset into a metallic silver or matte black body, and topped with a translucent RGB light bar optimized for smooth lighting, the Trident Z5 RGB is ideal for any PC build themes.

Streamlined RGB Light Bar

Designed with a more streamlined light bar, the Trident Z5 RGB looks sleeker than ever. Featuring customizable RGB lighting through the G.SKILL lighting control software or supported third party motherboard software, personalizing the colors and lighting effects of the Trident Z5 RGB is a breeze.

Revolutionary Performance

Designed to fully utilize the faster frequency speed and boost data transfer rate, each DDR5 IC is implemented with twice the amount of banks and bank groups, as well as a doubled burst length, at 32 banks across 8 banks with a burst length of 16. Combined with a module layout comprised of two 32-bit sub-channels, DDR5 memory is capable of delivering more data than DDR4.

All-New Power Management Design

Each DDR5 memory module is built with an on-board PMIC (power management integrated circuit) chip, allowing better granular power control and more reliable power delivery to improve signal integrity at high frequency speeds. Ultimately, ensuring the highest

level of system stability for gaming and for work.

Engineered for the Ultimate DDR5 Experience

Each and every Trident Z5 RGB memory kit is tested under G.SKILL's rigorous validation process to ensure the best-in-class reliability and compatibility across the widest range of motherboards.

Sync Up with System Lighting

Want to sync up your system lighting? You can use Asus Aura, Gigabyte RGB Fusion, MSI Mystic Light, or ASRock Polychrome Sync software to personalize the colors and effects of your Trident Z5 RGB memory and compatible motherboards!

XMP 3.0 Support

Just set and go. Programmed with the latest Intel XMP 3.0 profiles, the only thing between you and extreme performance is a simple setting. Additionally, XMP 3.0 enables two customizable user-defined profiles to be saved in the memory module via BIOS on supported motherboards, so your fine-tuned memory settings go wherever the modules go.

Zusammenfassung

G.Skill Trident Z5 RGB F5-6400J3239G16GX2-TZ5RK, 32 GB, 2 x 16 GB, DDR5, 6400 MHz, 288-pin DIMM

G.Skill Trident Z5 RGB F5-6400J3239G16GX2-TZ5RK. Component for: PC/Server, Internal memory: 32 GB, Memory layout (modules x size): 2 x 16 GB, Internal memory type: DDR5, Memory clock speed: 6400 MHz, Memory form factor: 288-pin DIMM

Merkmale

Logistics data		Features	
Harmonized System (HS) code	84733020	Buffered memory type	Unregistered (unbuffered)
		Internal memory	32 GB
		Memory layout (modules x size)	2 x 16 GB
		Internal memory type	DDR5
		Memory clock speed	6400 MHz
		Component for	PC/Server
		Memory form factor	288-pin DIMM
		ECC	No
		Memory channels	Dual-channel
		Memory voltage	1.4 V
		Intel Extreme Memory Profile (XMP)	Yes
		Intel Extreme Memory Profile (XMP) version	3.0
		SPD profile	Yes
		Country of origin	Taiwan
		Cooling type	Heatsink
		Backlight	Yes
		Backlight colour	Multicolour
