Arctis Nova 7 Wireless

The Nova Acoustic System combines hardware and software for Almighty Audio and pure immersion, with powerful wireless features for a stellar experience.

Nova Acoustic System

Challenge your perceptions of gaming headsets with the best-in-class Nova Acoustic System, with powerful, custom-designed High Fidelity Drivers. Crystal clear high notes, precise mid-range, and deep bass fills your ears as the drivers work together with SteelSeries Sonar Audio Software Suite.

Hear an opponent's position with 360° Spatial Audio and immediately identify the direction for your next move. Immersive audio surrounds you from every angle, putting you at the center of the action for an in-game advantage.

Take complete control over your sound with the Pro-grade Parametric EQ, a first in gaming. SteelSeries Sonar Audio Software Suite gives you X-Ray Hearing to identify footsteps and other key in-game sounds enabled by presets from esports pros to gain the advantage.

Multi-Platform Support with Simultaneous Wireless

Play and communicate your way. Seamlessly swap between multiple devices with the pocket-size USB-C dongle, bringing 2.4GHz wireless to your PC, Mac, PlayStation, or Switch.

USB-C

Utilize the latest USB-C connection to charge the headset for maximum flexibility, no more carrying multiple cables.

38 Hour Battery Life

With 38 hours of playback, that's over a day and a half of continuous use, keeping you connected to your favorite gaming world for as long as you need.

Fast Charge

Get back into the fray quickly with the USB-C Fast Charge function, bringing 6 hours of use after just 15 minutes.

AI-Powered Noise Cancelling Microphone

Free your in-game comms from keyboard clacking and your squad's bad microphone placement. Sonar Software's ClearCast AI algorithms silence noise from both incoming and outgoing team chat for perfect audio. The broadcast-quality ClearCast Gen 2 mic reduces background noise by up to 25dB on any platforms and completely retracts into the earcup.

ComfortMAX System

Ideal for long sessions, the Arctis Nova 7 Wireless features expanded fitting options with 4 points of adjustment. Easily find the perfect fit with new height-adjustable rotating earcups, a stretchy overhead band, and breathable AirWeave memory foam cushions. Constructed around a PVD-coated steel headband, the all-new design is up to 14% lighter than previous generations.

Onboard Controls

Stay in the game with controls right at your fingertips. Easily adjust the volume of the headset, tweak ChatMix* to tune your squad in or out, mute your mic quickly, or answer calls using Bluetooth all with the touch of a button.
