## **The new standard for hybrid working**

From the first call of the day to the last train home, this clever headset has been specifically engineered to keep you connected and productive. Whatever your day throws at you.

So, whether you're dialing in from a noisy home, hot-desking in a shared workspace or trying to concentrate in a busy open office, the Evolve2 75 is perfectly engineered for your needs.

## **Make yourself at home**

Ready for a whole new standard of comfort? We've created a revolutionary new dual-foam technology, with an ergonomic earcup design. Featuring a re-engineered leatherette ear cushion pattern for improved ventilation, it'll keep you comfortable from the first call to the last.

Our engineers spent a lot of time examining different weights, consistencies and densities of memory foam to optimize audio performance. And they made an amazing comfort breakthrough at the same time.

By combining hard foam for the exterior and soft foam for the interior of the ear cushions, we can deliver incredible noise isolation and the ultimate all-day comfort. So you get even better Active Noise-Cancellation (ANC) performance in a headset you can keep wearing as long as you like.

## **Keep it professional**

Because hybrid working can be noisy, we've engineered Evolve2 75 with 8 strategically-placed microphones and our advanced beamforming technology. So even when the kids are home, the train's crowded or the office is a little busy, with our world-leading call technology, they'll hear you and not your surroundings.

Evolve2 75 meets Microsoft's Open Office requirements, making it the ideal choice for busy open-plan workspaces.

Our advanced triple digital chipset powers a ground-breaking new Jabra algorithm, which improves the differentiation between voice and background noise to make your calls even sharper

Evolve2 75 keeps the background noise in the background – and off your calls.

## **Best-in-class. Boom.**

Our Evolve Series is already miles ahead when it comes to industry-leading professional-grade call performance, but Evolve2 75 takes best-in-class. With a re-engineered microphone boom-arm that's 33% shorter than Evolve 75, it delivers the world-leading call performance Jabra headsets are so famous for.

In Performance Mode, with the microphone boom-arm down, it's specifically optimised for outstanding calls in open-plan offices and other noisy places, and meets Microsoft's Open Office requirements.

And when you're on the go, Discreet Mode, with its hide-away design, makes it completely invisible, while still delivering reliably clear calls.

### **Concentration mode: activated.**

Sometimes you have to take calls or find focus in less-than-ideal environments. But with our fully adjustable Jabra Advanced Active Noise-Cancellation (ANC)<sup>™</sup>, you don't need to worry about how (and where) you work. Use the Sound+ app to select your level of noise-cancellation, and let the advanced feedforward and feedback dual hybrid ANC do its thing to protect your focus.

From the train, to the street, to the café, to the airport and back to the office again.

Evolve2 75 is engineered to help you concentrate – wherever you are.

### **Three advanced chipsets. Three times the power.**

All the outstanding (and we mean outstanding) features in Evolve2 75 are powered by an advanced ecosystem of three powerful digital chipsets. These work in tandem to make Evolve2 75 faster, more powerful and more intelligent than ever before.

Incredible processing power = incredible productivity.

### **As flexible as you are**

Evolve2 75 is available in a Microsoft Teams-certified variant and the UC variant which is certified for Zoom to ensure a seamless collaboration experience.

It's also optimised for other leading UC platforms, so you can be confident that however you keep in touch with your team, this trusted device will keep the collaboration going all day.

### **Protect your focus zone**

On a call? No problem. We've studied open office behaviour and used the results to optimise the busylight on Evolve2 75, making it even more visible\*, allowing it to be seen from more angles.

Now, your teammates can make a quick U-turn before you have to start mouthing 'I'm on a call' at them.

It's good to know you can stop interruptions before they happen.

\*when compared to the Evolve 75 model.

### **Stay flexible. Stay connected.**

Time for a coffee. With outstanding call performance within a 30-metres wireless range, you can grab one even though you're on a call (just don't forget to go on mute).

And with flexible connectivity, you can connect to both your laptop and your smartphone. So you can walk even further from your desk without getting disconnected.

Evolve2 75 gives you the flexible work-day freedom you need.

### **Find your rhythm**

As world leaders in professional-grade sound, we never underestimate the power of great audio to keep your day flowing smoothly. And we've set a new standard all over again with Evolve2 75.

Powerful leak-tolerant 40mm speakers, combined with our revolutionary new dual-foam discovery, deliver crisp, clear audio for both your calls and your music.

The latest AAC codecs and our unique MySound technology (which tailors your sound to your individual hearing profile) will have your music sounding better than you could ever imagine. You can even fine-tune it further using the customisable EQ.

So whether you're dialing into a Monday morning check-in or listening to your Monday Motivation playlist, Evolve2 75 is engineered to bring the sound quality that powers your day.

### **Let's hear it**

Noise-cancellation is great, but sometimes you need to tap back into reality for a second. From platform announcements to ordering a coffee, if you tap your HearThrough button, you can hear it all without taking off your headset.

HearThrough uses the built-in microphones to let the outside in, giving you the freedom to tap into conversations or tune into your surroundings at the touch of a button.

HearThrough keeps the real world at your fingertips.

### **Your headset. Your way.**

With the companion apps for Evolve2 75, you can personalise almost everything about your headset, to make it uniquely yours.

Use the Sound+ app to adjust your ANC & HearThrough, fine-tune your sound with MySound & the customisable equaliser, adjust call settings and upgrade firmware from your mobile.

Using more than one Jabra headset? Use the Jabra Direct app on your PC for a complete overview and firmware upgrades for all your devices. We've even given it a shiny new look and added more great features.

Because we don't believe headsets should be 'one size fits all'.

### **Designed with a fit-first approach.**

From the first call to the last, Evolve2 75 delivers a whole new standard of comfort. That's because we took a completely new approach to the design, using biometric measurements from hundreds of heads to get the fit just right.

Using a simulation head (and hundreds of real-life test subjects), we made sure we'd crafted a solution that really fits, before moving onto the Danish design.

The perfect fit. Designed for you.

### **All work. All play. All day.**

When no two days are the same, you need to know your headset can handle the pace. We used our advanced battery efficiency technology to optimise the performance of Evolve2 75, delivering up to 25 hours of talk-time or 36 hours of music time, on a single charge.

We've also optimised our fast charge feature, delivering an impressive 4 hours of battery in just fifteen minutes of charging. So you can stretch that week-long battery life out to cover your downtime too.

Extended battery. Extended possibilities.

### **You're connected**

Nothing beats an instant connection. And it doesn't get much more instant than Google Fast Pair for enterprise, which utilises Bluetooth Low Energy (BLE) to discover nearby devices, without draining your phone battery.

We've worked closely with Google to bring this functionality to our enterprise headsets, without compromising on privacy.

Just place your Evolve2 75 near your Android device. It's that fast.

## **Zusammenfassung**

Jabra Evolve2 75 - USB-C MS Teams with Desk Stand - Black, Wired & Wireless, Calls/Music, 20 - 20000 Hz, 197 g, Headset, Black

Jabra Evolve2 75 - USB-C MS Teams with Desk Stand - Black. Product type: Headset. Connectivity technology: Wired & Wireless, Bluetooth. Recommended usage: Calls/Music. Headphone frequency: 20 - 20000 Hz. Wireless range: 30 m. Cable length: 1.2 m. Weight: 197 g. Product colour: Black

## Merkmale

### Logistics data

### Microphone

Microphone type

Boom

Harmonized System (HS) code	85183000
-----------------------------	----------

## Technical details

Easy pairing	Yes
--------------	-----

## Operational conditions

Operating temperature (T-T)	-10 - 45 °C
Storage temperature (T-T)	-10 - 45 °C

## Weight & dimensions

Width	145 mm
Weight	197 g

## Packaging content

Charging stand	Yes
Quick start guide	Yes
Carrying case	Yes
Cables included	USB Type-A to USB Type-C

## Headphones

Maximum input power	30 mW
Ear coupling	Supraaural
Headphone frequency	20 - 20000 Hz
Driver unit	4 cm
Noise canceling type	Active

Microphone frequency	5 - 20000 Hz
Microphone sensitivity	-35 dB
Number of microphones	8
MEMS (Micro-Electro-Mechanical System) microphone	Yes
Microphone mute	Yes

## Other features

Voice guidance	Yes
Voice guidance languages	English, French, German, Japanese, Korean
Call management	Y
Applications supported	Jabra Sound+, Jabra Direct, Jabra Xpress
Voice control	Yes
Digital Signal Processing (DSP)	Yes

## Battery

Battery operated	Yes
Battery type	Built-in battery
Battery technology	Lithium-Ion (Li-Ion)
Continuous audio playback time	36 h
Rechargeable battery	Yes
Talk time	24 h
Battery charge indicator	Yes
Battery recharge time	2.7 h

## Ports & interfaces

Connectivity technology	Wired & Wireless
USB connectivity	Yes
USB connector	USB Type-C
Bluetooth	Yes
Bluetooth profiles	A2DP
Bluetooth version	5.2
Frequency response (music mode)	20 - 20000 Hz
Frequency response (talk mode)	100 - 8000 Hz
Wireless range	30 m

## Performance

Product type	Headset
Wearing style	Head-band
Recommended usage	Calls/Music
Headset type	Binaural
Product colour	Black
Operating keys	Volume +, Volume -
Volume control	Button
Cable length	1.2 m
LED indicators	Yes
Over the Air Updates (OTA)	Yes
On/off switch	Yes
Hearing protection technologies	Jabra PeakStop, Jabra SafeTone, Jabra Safetone G616
Phonebook access profile (PBAP)	Yes
Music playback	Yes
Number of simultaneously	2

connected devices (max)	
HD voice	Yes
Auto-connect	Yes
Steel hinges	Yes
