We are entering our Advanced + series with the XILENT BREEZE Performance A + X7 PC case.
The Case offers numerous possibilities to set up the interior individually and easily.
In addition, you have a crystal-clear view inside to your components because of the tempered glass side panel.
With the three ARGB fans on the front panel and the full diamond mesh front, it is not only visually impressive, but also proves to be a true performance monster!

- Full Diamond Mesh Front with three ARGB Xilence Fans and a black 120mm PWM Fan in rear preinstalled
- No visible screws at the tempered glass side panel, because of the connection from the back
- With 220 mm width offers the case more space for a excellent air circulation
- Suitable for liquidcoolers with 360mm, 280mm und 240mm radiators in the front
 280mm oder 240mm radiators on top or a 120mm radiator in the rear
- Space for Graphiccards with a length up to 350mm and CPU-Coolers with a height up to 165mm
- Xilence tool-free Graphiccard Mounting
- There is up to 25 mm space behind the mainboard for individually cable management
- Tool-free installation for HDD / ODD
- For better ventilation in the case, there is a PSU shroud at the bottom
- Efficient, easily removable and easy-to-clean dust filters at the top and back
- 2xUSB 3.0 Ports at Top-Panel
