|-------------------------|---------------|
| <b>Artikel</b>          | 133971        |
| <b>Herstellernummer</b> | HAT5310-8T    |
| <b>EAN</b>              | 4711174724727 |
| Synology                |               |

## **Built for Demanding**

Workloads and HighCapacity Arrays Synology HAT5300 series is designed to tackle demanding, high-volume workloads. Optimized specifically for Synology storage solutions, its design enables high sequential throughput, maximizing the number of concurrent clients the system can sustain. HAT5300 series drives are engineered for maximum dependability, passing over 500,000 hours of validation, and are backed by Synology's 5-year limited warranty.

## **Scale-up Confidently**

Synology HAT5300 series drives are engineered to provide fast and dependable performance, even for a large number of clients. Firmware and software collaborate to ensure maximum performance, delivering over 23% higher sequential read performance than similar capacity drives.<sup>1</sup> HAT5300 series provides outstanding performance for large-scale video surveillance, multimedia post-production, and enterprise file server environments.

## **Maximum Endurance and Reliability**

Designed with our expertise in storage systems, HAT5300 series drives are backed by an up to 2.5 million hour MTTF rating, workload support of 550 TB per year, and persistent write cache technology. Over 500,000 hours of compatibility and stress testing ensure that the HAT5300 can continuously operate even under extreme workloads with our NAS and IP SAN lineup. Combined with data protection solutions running on Synology systems, you can confidently depend on your data 24/7 using HAT5300 series drives.

## **Simplified Maintenance**

DSM updates will ensure that compatible Synology drives will be updated together with the operating system. This reduces the number of maintenance sessions IT teams need to schedule while also increasing the entire system's service availability. Simplify IT infrastructure planning requirements by getting support for the entire system from Synology.

## **Zusammenfassung**

---

### **Built for Demanding**

Workloads and HighCapacity Arrays Synology HAT5300 series is designed to tackle demanding, high-volume workloads. Optimized specifically for Synology storage solutions, its design enables high sequential throughput, maximizing the number of concurrent clients the system can sustain. HAT5300 series drives are engineered for maximum dependability, passing over 500,000 hours of validation, and are backed by Synology's 5-year limited warranty.

### **Scale-up Confidently**

Synology HAT5300 series drives are engineered to provide fast and dependable performance, even for a large number of clients. Firmware and software collaborate to ensure maximum performance, delivering over 23% higher sequential read performance than similar capacity drives.<sup>1</sup> HAT5300 series provides outstanding performance for large-scale video surveillance, multimedia post-production, and enterprise file server environments.

## Maximum Endurance and Reliability

Designed with our expertise in storage systems, HAT5300 series drives are backed by an up to 2.5 million hour MTTF rating, workload support of 550 TB per year, and persistent write cache technology. Over 500,000 hours of compatibility and stress testing ensure that the HAT5300 can continuously operate even under extreme workloads with our NAS and IP SAN lineup. ## Simplified Maintenance

DSM updates will ensure that compatible Synology drives will be updated together with the operating system. This reduces the number of maintenance sessions IT teams need to schedule while also increasing the entire system's service availability. Simplify IT infrastructure planning requirements by getting support for the entire system from Synology.

Synology HAT5310-8T, 3.5", 8 TB, 7200 RPM

Synology HAT5310-8T. HDD size: 3.5", HDD capacity: 8 TB, HDD speed: 7200 RPM

## Merkmale

### Logistics data

|                             |          |
|-----------------------------|----------|
| Harmonized System (HS) code | 84717050 |
|-----------------------------|----------|

### Power

|                           |        |
|---------------------------|--------|
| Power consumption (read)  | 9.29 W |
| Power consumption (write) | 9.29 W |
| Power consumption (idle)  | 5.61 W |

### Weight & dimensions

|        |          |
|--------|----------|
| Width  | 101.8 mm |
| Height | 26.1 mm  |
| Depth  | 147 mm   |
| Weight | 720 g    |

### Operational conditions

|                             |                |
|-----------------------------|----------------|
| Operating temperature (T-T) | 5 - 60 °C      |
| Storage temperature (T-T)   | -40 - 70 °C    |
| Operating vibration         | 0.25 G         |
| Non-operating vibration     | 3 G            |
| Operating altitude          | -305 - 3048 m  |
| Non-operating altitude      | -305 - 12192 m |
| Operating shock             | 70 G           |
| Non-operating shock         | 260 G          |

### Features

|                             |   |
|-----------------------------|---|
| HDD size                    | 3.5"  |
| HDD capacity                | 8 TB  |
| HDD speed                   | 7200 RPM  |
| Interface                   | Serial ATA III                                    |
| Type                        | HDD   |
| Component for               | NAS   |
| HDD interface transfer rate | 6 Gbit/s  |
| HDD sustained transfer rate | 248 MiB/s   |
| 24/7 operation              | Yes   |
| Workload rate limit         | 550 TB/year                                       |
| Mean time to failure (MTTF) | 2000000 h   |
| Certification               | CE, RCM, BSMI, KC, EAC, UL, TUV, ICES, UKCA, RoHS |
