Manage your smart devices from one centralized place with Shelly Wall Display, now combined with Shelly BLU H&T for precise climate control

why shelly wall display?

Navigate your Smart Home: Simplified Control from One Spot!

Shelly Wall Display is a sophisticated 4-inch display that brings intuitive control and seamless monitoring to every corner of your smart home. Say goodbye to your ordinary switches - now, you can effortlessly turn your devices on/off with a simple touch. Whether it's dimming the lights, adjusting the room's ambiance, or ensuring optimal energy efficiency, this smart control panel makes home management simple. The highly customizable home screen becomes a reflection of your preferences, offering a quick glimpse of essential smart home details like temperature, humidity, and power consumption of the room. It also features a built-in 5 A switch, which is a breeze to operate; a quick tap with two fingers lets you switch it on or off without the need to look.

Personalized Home Screen for Instant Control

Tailor your home screen just the way you like it. Effortlessly arrange and customize the layout to showcase up to 6 devices that matter most to you. You can switch devices on or off with a single tap, monitor humidity and temperature, and know the room's current power consumption with just a glance.

Quick Control Center: Your Chosen Favorites

This dedicated space lets you create an unlimited collection of your most-used devices, groups, and scenes, putting them all at easy access. Say goodbye to scrolling through menus – the Favorites Tab ensures that whatever you need is right where you expect it to be.

Device Tab (room-specific)

Access all your devices at a glance using the Devices Tab on Shelly Wall Display. See a complete list of devices that are set up in your chosen room, and control each one individually.

Room-Specific Groups Tab

Simplify control by quickly managing your existing groups. Discover and control the groups of devices that work together harmoniously within the selected room, all in one convenient place.

Scenes Tab (room-specific)

Transform your space in an instant. Discover the scenes you've created to set the perfect ambiance for any occasion. Whether it's a cozy movie night or a fun gathering, the Scenes Tab empowers you to alter the mood with a simple touch.

Home Assistant Integration

Connect Shelly Wall Display with Home Assistant or the Shelly Smart Control App to bring your smart home together effortlessly.

Wi-Fi and Bluetooth connectivity

Connect it to your Wi-Fi network. No HUB required! Quick inclusion via Bluetooth or use it as a Bluetooth gateway.

Instant environmental data

Integrated LUX sensor & precise temperature and humidity data from Shelly BLU H&T for monitoring and automations

Thermostat

Monitor, manage and fine-tune your heating or cooling settings together with data from Shelly BLU H&T.

Integrated switch

Features a 5 A switch for appliance control

Power monitoring

Of all power measuring devices in your chosen room

Easy navigation

Scroll through different menus and control your devices with just a tap
