The AK-C7000 is a high quality, high performance, and highly reliable PC-keyboard. The purification and disinfection capacity makes it a perfect fit in hospitals, at practitioners and in microbiological laboratories. The silicone membrane protects keyboard and key field against ingress of dirt and fluids.

The AK-C7000 impresses with congenial key actuation and precise key guidance. With its full PC key layout, the AK-C7000 is highly recommendable for heavy duty type writing in hygiene critical applications. The AK-C7000 increases protection against infection and limits risk and liability of the health care provider.
