FSP/Fortron	

The appearance of Eco series UPS is stable and introverted, while its functions are not to be underestimated. Given with its compact size, it can, simultaneously, supply power to computers, screens, routers, and other equipment, considered to be topping on their priority list for home computers or small office computer workstations.

- Compact size with stand and mounting flexibility
- Excellent microprocessor control guarantees high reliability
- Auto restart while AC is recovering
- Simulated sine wave
- Cold start function
- Full protection: discharge, overcharge, short circuit and thermal protection
