G DATA Antivirus 2020

Artikel	448154
Herstellernummer	C2001ESD24001
G DATA	

Innovative
Best G DATA protection for Windows: Our brand new DeepRay® and BEAST technologies use artificial intelligence and behavioral analysis to detect camouflaged and previously unknown malware.

Smart
Our Next-Generation-Technologies already recognize by the behavior of programs whether they are planning an attack. So you are always one step ahead of hackers.

Uncompromising
Whether it's attacks by ransom blackmailers, security breaches or online banking, you're safe. A good feeling, isn't it?

The protective shield for your PC
Virus scanner
Put your trust in the highest detection rates with technologies working in parallel.

How it works
Behavior monitoring
Protect yourself against even unknown malware. G DATA Antivirus detects this from its conspicuous behaviour.

Information on behaviour analysis
Email scanning
Scans incoming email and attachments for suspicious content. Dangers are detected before anything has happened.

Exploit protection
Protects your computer against criminals exploiting security holes in Office applications and PDF readers, for example.

How Exploit Protection works
G DATA BankGuard
Our patented technology secures your browser against manipulation by data thieves – for secure online banking and shopping.

Anti-Ransomware
No opportunity for extortion Trojans – we stop criminals encrypting your files.

More about our technology
USB Keyboard Guard
Protects you against manipulated USB devices that pretend to be keyboards, even though they look like USB sticks or external hard drives.

Update Management

Specify when and where your PC loads updates. This helps you avoid additional costs, by logging into a third-party WLAN for example.
