Charging

The QC 3.0 charge port with up to 12 V offers an extremely fast and convenient way to charge compatible smartphones, tablets, digital cameras, and power banks. The fast charge ports (5 V / 2.4 A) comply with the new battery charging specification (BC 1.2) and completes the portfolio of ports. Thanks to the power supply unit, this is also possible without a connected host computer. The hub can be switched off via a button.

Sevenfold

Seven USB 3.0 ports in one sweep. If all USB 3.0 ports are busy again, the phone needs to be charged and important data must be copied spontaneously back and forth from external storage devices, this candidate can help. The IB-HUB1703-QC3 is always in the place you want it to be.

Mounted

Every working environment is different. The IB-HUB1703-QC3 faces this challenge and offers all features to compete in both private and industrial environments. Thanks to the table or wall mounting bracket, the highgrade aluminium housing can be installed stably
