

LANCOM Basic

LANCOM License UF Basic

Artikel	831366
Herstellernummer	55132
EAN	4044144551321
LANCOM Systems	

A valid license is required to operate a LANCOM R&S@Unified Firewall or LANCOM vFirewall. With the flexible licensing model, you can choose between your desired scope of functions (Basic or Full) and the available license periods of 1, 3, or 5 years.

Basic License

Use a high-performance security appliance to handle your internal network segmentation. With user-based rules and rights, professional user authentication, and – last but not least – the easy-to-use design of our interface, you can be sure that the rules in your various security zones are complied with in full. This license activates firewall features and offers firmware updates as well as support services.

Full License

Take back control over your network with the complementary, full UTM and VPN features. Corporate policies, load, security, and data traffic are easy to monitor with our various filtering and scanning options. These include Content Filter with youth protection filter and App Filters, the mature IDS / IPS system or our Anti-Virus, Anti-Spam and Anti-Malware features, and preventive security from unknown threats through integrated sandboxing and machine learning.
