The best Office for you and your family

The user-friendly, multi-purpose writing program. Buy Office 365 Home to get the most up-to-date version of Microsoft's premier word processor, Word 2013, for you and your family. Easily create the documents you need using this versatile program. Microsoft Word is perfect for writing letters, completing homework, taking notes, and a plethora of other household tasks. Choose from over 40 different templates to easily get the look you want or start from scratch and let your creativity flow. Re-designed for simplicity, you'll have your family creating documents in no time.

- Include images, tables, videos, and even edit PDFs without having to leave your document.
- Navigate and view your documents using the state-of-the-art Read Mode.
- Stay in sync and edit on the move using the Word Web App.

The clever calculation program. Office 365 Home comes with a brand new version of Microsoft Excel – a powerful calculation tool. Now easier to use and more intuitive than any other version, with Microsoft Office 365 you know you'll always get all the most recent updates. Clever and intuitive, let Excel do all the hard work for you. The program is perfect for all your family's computing needs, for example the household accounts, the kids' homework, or planning your holiday expenses, to name a few. Excel can recognise and detect connections across workbooks making it easier to spot the trends and draw conclusions – making Office 365 Home perfect for your family.

- Visualise, analyse, and make conclusions with a few simple clicks by using one of the templates, or design your own worksheets from scratch.
- Separate workbooks now open in new windows allowing you to keep on track as you work.
- Clever new features and a redesigned interface will have you calculating in no time.

Interactive notes on the go. Another great feature of Office 365 Home is the new and improved version of OneNote 2013. Use OneNote to type, draw, handwrite, or swipe your notes. With the intelligent recognition software, OneNote makes all your notes searchable and syncs them across your devices. It's also possible to share your notes with your family so you'll all be on the same page, never forget the milk again!

- Draw, use your stylus, type, or include web pages, OneNote is designed to accommodate any method of note taking you like.
- OneNote can recognise your handwriting, making your handwritten notes as searchable as your typed ones.
- Use the Send to OneNote tool to easily send quick notes, documents or even web pages to any notebook section you like.

Attractive presentations in just a few clicks. This updated version of PowerPoint offers you and your family the chance to have fun while working on all kinds of projects. PowerPoint is perfect for creating a splash at your big meeting, the children's class presentations, or creating a lasting collection of your holiday snaps and home videos for your friends and family to enjoy. Slideshows have never been simpler to create.

- Showcase your ideas the way you want by using handy features such as themes, colour matching, or even choose a ready-made template.
- Create more than just a slideshow by integrating audio and video files directly into the slide.
- Only show your audience the slide and keep your notes to y
